

We are pleased to announce our newest benefit.....

A Concierge Prescription Drug Advocacy Service!

This service is designed specifically to help you with expensive brand name & specialty drugs.

RXHC, which has been helping people for over 7 years, is primarily targeted to more expensive brand name and specialty drugs; however, it's very possible that the concierge service can even help those whose prescription drugs are not overly expensive. It is important to note this is not an overnight solution. The process can require from two weeks to 30 days on average to implement.

The initial study is free! There is no guarantee that RXHC can reduce your prescription costs; but, if they can, you should be able to significantly lower your prescription drug costs! And, if RXHC can assist you in lowering your prescription costs, the RXHC participation fee of \$50/month will be paid by us for all employees and dependents covered by our group healthcare insurance as long as you are still employed by us! You can also utilize this service for non-covered family members (mother-in-law, child over 26, etc.) as long as you cover the \$50/month participation fee.

You are not required to use this service; but, cost savings can likely be found if you are spending more than \$75 for any one prescription or \$100 or more per month for all of your prescriptions. If you are interested, [CLICK HERE TO REGISTER](#) to see if they can significantly lower your or a family member's drug costs!

Don't just take our word for how well it works...see what others who have used this service said:

"I am THRILLED that this company exists!!! I was taking medicine for my cystic acne. Painful bumps ALL over my face, back, and chest. I called around to pharmaceutical companies looking for help with the cost of the medicine. I finally got referred after 16 other companies rejected me, to rxhelpcenters.com THANK GOD for Anji!! I got my medicine that was \$800.00 per month for \$25. WAY better!!! Thank you SOOO much, I am spreading the word!!!!!" -Kathleen G, PA

"Before I connected with the RxHelpCenters, I always dreaded facing my deductible every January! My RxHelpCenters advocate explained how they could help & made the process very easy. In no time, I was receiving my medications and saving 10s of thousands of dollars! Most of my medicines continue to come to me from the same sources that I have used in the past; and, in the cases where there was a change, the medication itself is exactly what I had been picking up at the local pharmacy. With the RxHelpCenters help, I no longer have to worry about how I'm going to pay for my medicine!" – Rick W, IN

The current health plan, drug card and vendors are not changing. This program is an added benefit to your current healthcare coverage!
