What is the program?

The Body Mass Management Program (BMMP) empowers you to learn more about your health and keeps you accountable for taking care of your body. The 16-Week program consists of bi-weekly Lean Pix screenings and meetings with onsite health coaches, periodic metabolic testing to find out YOUR specific metabolism, as well as GetHealthy Sessions to focus on stress management, activity levels or nutrition- whatever interests you most!

How Do I Get Started?

- **Attend a 30-45 Minute Information Session on January 17th at 9am, 10:30am or 3:30pm at Ben Davis University (CC1)**
- Immediately follow the information session, sign up for an initial LeanPix body composition measurement on January 18th, January 19th or January 22nd
- If you complete an initial body composition measurement, you'll be invited to attend a session to discuss your results.
- After you receive your results, you'll have the opportunity to apply for the official Body Mass Management program. Twenty-Five additional employees will be selected to participate in the next round of the program!
- If you're interested in applying, you can submit an application during your feedback session.

Check Out These Other Resources for More Information:
