

Get started with OC24health

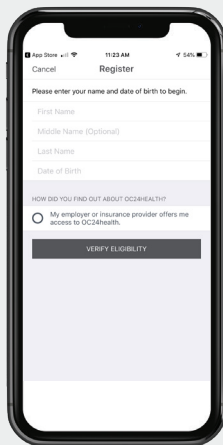

It's quick and easy to set up your account through our app. Simply download the app and follow the four steps you see below.

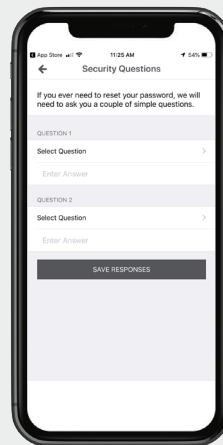

1. Verify Access

Provide a few pieces of information to verify your access and set up your account.

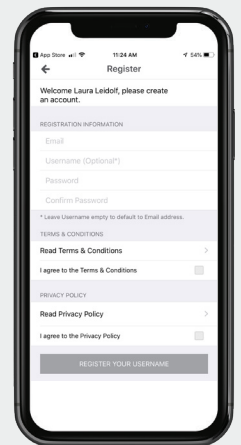

2. Create Account

Enter a username and password and read the terms and conditions to register.

3. Security Questions

Select your account security questions to be asked upon password reset.

4. Patient Details

To request a visit, you will need to enter required medical information.

Talk to a certified medical provider anytime!
